CONNECTING YOU

A Personal Message from Karl Rekowski

We'd like to welcome you to the summer season as your social calendar intensifies in the days ahead. Please join the More Mobile team as we keep you connected to all of your wireless needs. Our commitment to you is to L.E.A.D, as I have always believed in pushing the boundaries of customer service every day.

- Listen to you and what you need for your wireless life
- Educate you on how to use your solutions
- Activate your equipment for use immediately
- Direct you to the right solutions

I would like to share [My More Mobile Story](#) with you, so take a moment and read why I strive to keep you connected every day.

I ask you to share your stories on [Facebook](#) and tell us how our team has helped you to stay connected as we L.E.A.D the wireless revolution!

Thank you for your continued support over the years as we move into our 8th successful year of business. We celebrate our customers, because it's you who continue to bring success to the More Mobile brand.

As the schools finish and the little people of the world enjoy the freedom of summer, it is essential to have information at your fingertips. The wireless world brings you weather reports, baseball schedules, movie listings and more so that you can organize your day with ease and enjoy the family time you all deserve. Here is a fabulous app we recommend to add a little organized fun to your [Sundays at the Movies](#).

So many of us work in the entrepreneurial world today and it is essential that you are connected 24/7. The More Mobile team does just that and ensures that your individual needs are met to reflect your daily demands. A recent customer started to work in the lake country community and came to us to change her carrier to US Cellular when she was left with continual loss of phone service with her last provider. Here is what she has to say:

"Since the first day I changed to US Cellular with More Mobile, I have had absolutely no loss of service anywhere, including many other destinations in the United States. I now enjoy an early morning swim on the lake and check all of my emails on the pier as I have accessibility to all of my professional needs, anywhere, anytime, thanks to the More Mobile Team."

Play is essential to enjoy a balanced life and to make sure that you look after yourself. Whatever your vice, we connect you to the wireless world so that you can shut down and enjoy this time with everything you need at your fingertips. Save the date and join our team at the [Outdoor Festival Event](#) this summer!
